

Sustainable Groundwater Management in the Czech-Austrian Border Region

ATCZ00067

Mid-Term Meeting

9 September 2026 (10:00–14:00)

GeoSphere Austria

Neulinggasse 38, 1030 Vienna
3rd Floor, New Building, Conference Room 3.35.00

The Mid-Term Meeting will provide an overview of the project's progress and key achievements during the second year of implementation. Special attention will be given to the ongoing drought situation and its impact on groundwater resources in the Czech–Austrian border region, one of the driest areas in both countries. The meeting will offer a platform to discuss current challenges, share knowledge among project partners, and plan the next steps towards sustainable groundwater management.

Left: artesian well in Dietmannsdorf, Pulkau valley, right: old community well in Waitzendorf, Obermarkersdorf basin

Programme

10:00 – 10:15 Welcome and Opening Remarks
